SELF-STORAGE INDUSTRY FUNDRAISER RAISES
DONATIONS FOR CHILD ABUSE, HOMELESS FAMILY SUPPORT

HOUSTON (January 10, 2007) – “The Giving Season Initiative,” a holiday season fundraising effort led by Storage Investment Advisors, LLP (SIA), a Houston-based investment real estate services firm focused solely on the self-storage industry, and its Indianapolis-based marketing firm, The Streetview Group, netted several thousand dollars in donations from self-storage industry organizations to support social services agencies in Houston, Los Angeles and Indianapolis.

The donations were raised through an appeal program directed to self-storage property owners and industry-related service companies. Storage Choice, a Dallas-based self-storage property owner, supported the effort by processing electronic contributions. Fundraiser recipients were:

- **Child Advocates**, a Houston-based agency that guides more than 1,750 abused children each year to safe environments where they can thrive.
- **The Downtown Women's Center**, a Los Angeles group that provides meals, housing, healthcare, educational and other supportive services to help homeless women achieve self-sufficiency.
- **Dayspring Center**, an Indianapolis organization that provides emergency shelter, clothing, meals, case management services and transitional housing support to 150 homeless families annually.

- more -

“SIA and Streetview are committed to helping worthy organizations in our hometowns, and we were overwhelmed by the generosity of our friends, colleagues and clients in the self-storage industry who participated in the Giving Season Initiative. One hundred percent of their support was directly applied to providing abused children and homeless families with holiday gifts, food, clothing and basic life necessities,” says Aaron Swerdlin, SIA’s managing partner.

Storage Investment Advisors, LLP

Founded in 2006, Storage Investment Advisors manages self-storage property dispositions, acquisitions and capital market executions/financing on behalf of institutional and private capital clients. SIA team members have bought, sold, brokered and financed more than \$1 billion worth of self-storage real estate, collectively making SIA the industry’s leading real estate services firm based on transaction volume. Headquartered in Houston, SIA also has an office in Los Angeles.
